LIBERALS WILL NOT NOMINATE

Following the suggestion made by Col. L. G. Casewell, Drumheller, the Liberals of the Bow River Federal constituency meeting in the West Calgary Liberal Committee rooms Thursday decided not to place a candidate in the field for the coming election, and further, not to pledge themselves to any party or candidate during the campaign.

Hon. Charles Stewart, Minister of the Interior, addressed the meeting briefly on the standing of the Liberal party, and also intimated that it would probably not be wise to enter a candidate in the Bow River constituency.

"But what I do suggest is that you organize and prepare for the next election four years hence, or probably sooner. There is a definite move in the West to a growing popularity of Liberalism. While the Progressive group at Ottawa has certainly been a benefit to the Liberal government in as much as it has kept us alive to the needed reforms for which the Liberal party always had and always will stand for, I would predict that within the next four or five years, the Progressive element will have merged with the Liberal, and will be known as Liberal very shortly," Mr. Stewart declared.

Mr. Stewart went on to point out that in every case but two, the rural constituencies in Manitoba during the present campaign had held joint conventions of Liberals and Progressives. There is a growing tendency of this sort throughout the three Western provinces, he concluded.

After considerable discussion the following officers were selected for the Liberal Party of the Bow River Federal Constituency: Honorary President, Rt. Hon. W. L. Mackenzie King; honorary vice-president, J. W. MacDonald, K.C.; Macleod; president, Col. L. G. Casewell, Drumheller; first vice-president, F. A. Lount, Beiseker; second vice-president, L. H. Stack, Vulcan; secretary treasurer, Robt. Brownell, Drumheller.

Executive: Lewis McCook, Acme; Bert Gow, Barons; Bert Huffman, Langdon; Joseph Greenan, Carbon; William Clemens, Rockyford, and H. Scott, Gleichen.

LOCAL MINES TO COMMENCE WORK

PEERLESS MINE RE-OPENS

After being closed down since the spring, the Peerless Carbon Collieries re-opened the coal mine on Monday of this week, and we understand that the management has secured a C.P.R. contract, which will keep the mine working about three days a week. The miners will work every other day until more coal orders are on hand to justify a continuous run.

BALOGH COAL CO. ALSO READY

The Balogh Coal Company now has the machines installed and it is expected that by the end of the week the mine will be ready to start on a larger scale. Mr. Dunsmore, the new manager and co-owner, has informed us that some coal orders are on hand and that they expect a good run this fall and winter. With the machines installed this mine will be able to turn out more coal in shorter time and we hope that the Carbon coal mines will once more become steady producers.

GRAND FORKS SPORT NEWS

The soft ball game between Grand Forks and Carbon, which was played last Wednesday evening, was won by the former team, 9-2.

On Thursday evening a baseball match was played between the home team and Ghost Pine. Grand Forks played a very poor game and were defeated by a score of 11-3.

The Ladies' softball team of Grand Forks journeyed to Swallow Monday to play their return match. After a

MR. E. J. GARLAND

very interesting game, the Swallow ladies emerged the victors by a score of 45-24.

LITTLE ITEMS OF LOCAL INTEREST

The Innis Private Nursing Home, 921-18th Ave. W., Calgary Alberta. Excellent care for aged people, chronic, or waiting cases. Telephone W-2710.

J. M. MacDonald, of the Carbon school staff, left on Saturday for Calgary, where he will spend part of the holidays.

Mr. Jas. Ray of Vancouver arrived Saturday on the Bus and will spend some time in the district.

Miss Irene Nash went to Calgary on Saturday and will spend a few days in the city.

Gordon Ramsay left Sunday morning on his holidays. Cyril Poxon accompanied him.

S. F. Torrance was a Calgary visitor on Monday.

Wilfred Poxon, Harold Edwards and Hugh MacDonald left Sunday to attend the Boys Summer Camp at Sylvan Lake. Mr. Edwards took the boys over in the morning and returned the same day.

Mr. and Mrs. J. E. James and sons, Roy and Jack, left Sunday to take in a few days of the Calgary Stampede.

Mr. and Mrs. T. J. Ramsay and Ruth motored to Calgary on Sunday and returned Tuesday.

Miss Phyllis James left last Thursday to spend the summer holidays at Leduc.

Mr. and Mrs. A. H. Jealous and family motored to Craigmyle Saturday evening and returned Sunday night. George will visit for a while with his grandparents.

J. A. MacDonald has been appointed District Deputy of the Benevolent and Protective Order of Elks. The towns included in the district will be Carbon, Drumheller, Hanna, Youngstown and Cereal.

Mrs. H. N. Elliott is taking in the Calgary Stampede this week.

Mr. and Mrs. Roy Wacker and son returned Friday evening after spending a couple of days in the City.

Mr. and Mrs. J. J. Greenan and family took in the first day of the Calgary Stampede.

Miss Christina Harvey left this week to spend the summer with her uncle and aunt in Saskatchewan. Installed this mine will be able to

CARBON SENIOR ROOM REPORT

HERBERT PARKER CROSSES DIVIDE

The sad word was received on Sunday that Herbert Parker, an old timer in this district, had died on Sunday morning in the Trochu hospital, where he had been a patient for the last three weeks. The deceased was an old timer in the district, having come to Carbon about 1900. He leaves to mourn his loss one brother of Calgary, who attended the funeral. Sam Parkins is a nephew of the deceased.

Funeral services were held from the Anglican Church at Trochu on Monday and a large number of friends of this district were present. The pallbearers were: Messrs. Jas. King, Chas. Guynn, W. Keen and Clarence Riggs. Interment was made in the Trochu cemetery.

POWER MERGER IS TO INCLUDE UNION POWER COMPANY

With the announcement of a further merger of power interests which will absorb International Utilities and its subsidiary companies, the Union Power Co., Ltd. of Drumheller once again passes into new control.

The new company, known as The Dominion Gas and Electric Corporation, was recently organized in the East, will be controlled by the American Commonwealth Power Company, which has its head office at Grand Rapids, Mich. The company lists assets to the value of \$220,000,000.

Not only is the Union Power Co. affected by this merger, but the recently organized Drumheller Consolidated Collieries will be included in the assets of the new organization.

About 109 communities in Alberta, British Columbia and Saskatchewan are affected by the merger, including the Canadian Western Natural Gas, Light, Heat and Power Co. of Calgary; The Northwest Utilities Ltd., which company conducts operations at Raymond, Alta.; Wilkie, Kerobert, Kindersley, Rosetown, Melfort, Watrous, Nokomis and Yorkton, Sask. The Nanaimo Electric Light, Power and Heating Co., of B.C. is also a subsidiary.

The major subsidiaries of the American Commonwealth Power Co. include the American Community Power Company, General Public Utilities, American Gas and Power Company and the Union Gas Utilities. Each of these companies also controls smaller subsidiary companies.

According to local power officials, the merger will not affect the business policy of the Union Power Co., nor is it anticipated that there will be any staff changes for the present.

Mrs. Grainger will resume her music teaching in Carbon on Saturday, August 2nd.

Wanted to exchange sewing machine for tent. Apply at Chronicle office.

CLUNY TENNIS CLUB PLAY HERE

The Carbon Lawn Tennis Club entertained the Cluny Club in an Inter-Club match on July 6th. The games proved very interesting and resulted in a win for Carbon by four events to three.

Men's Singles—A. Birch of Cluny defeated L. Poxon of Carbon, 6-1; 6-0. V. Hawkins of Carbon defeated Somerville of Cluny, 6-3; 2-6; 6-4.

Ladies Singles—Mrs. Willson, Carbon, defeated Mrs. Birch of Cluny, 6-0; 6-3.

Men's Doubles—A. Birch and H. Birch of Cluny defeated L. Poxon & W. Edwards of Carbon, 6-4; 7-5.

L. Smith and J. Somerville of Cluny defeated H. Willson and Hugh Brown of Carbon, 6-3; 1-6; 6-3.

Ladies Doubles—Mrs. Willson and Miss D. Nash of Carbon defeated Mrs. Birch and Mrs. McLaughlin of Cluny, 6-1; 6-4.

Mixed Doubles—C. H. Nash and Miss D. Nash of Carbon defeated H. Birch and Mrs. McLaughlin of Cluny, 6-3; 6-4.

Mrs. C. W. Gray is a Calgary visitor this week, going in Saturday.

BANK OF MONTREAL CROP REPORT

General—General rains have benefited crops in the Prairie Provinces, with the exception of those in some sections of Southern Saskatchewan and Alberta, where more moisture is needed. Copious showers have repaired to some extent the heavy damage from wind and soil drifting in Saskatchewan and Alberta. Wheat is largely in shot blade, and some is heading out. In Quebec rains have been frequent, and warm, dry weather is now essential. At present crops are in a satisfactory condition except on low lying lands. In Ontario spring and root crops are looking exceptionally well, and the season is a week ahead of the average. Frequent showers and ample warmth continue to promote rapid growth. In the Maritime Provinces weather conditions in general continue to be good, though in some sections crops have suffered from lack of rain. In British Columbia cool weather with showers continues, and nearly all crops are two weeks later than usual.

Prairie Provinces—Northeastern Alberta—Crops damaged by wind and soil drifting have been improved by heavy rain. Warm weather is now needed.

Southeastern Alberta—Regional showers have helped crops, which are fairly satisfactory although weeds are worse than usual.

Western Alberta—Crops are doing well, following heavy rain, and warm weather is now needed. The sugar beet crop is in good condition.

Northern Saskatchewan—Crops are in good average condition, with ample moisture. Wheat is 75 per cent in the shot blade and some is heading out. The average height is eight to ten inches.

Southern Saskatchewan—Crop conditions are fairly satisfactory, although rain is needed in some sections. The average height of wheat is ten to 12 inches. General cutworm damage has been eliminated in most sections by heavy rain fall.

Manitoba—All crops are making satisfactory progress under favourable conditions and prospects are promising. Wheat is now largely in shot blade, with some heading out. Damage from any cause is slight.

A World Subject of Discussion

The whole civilized world is discussing one subject today.—Tariffs. And in those countries which are the more highly organized, where the standard of living is highest, where the most modern and efficient methods of production, both in agriculture and in industry, prevail, the discussion is most keen.

For over a year and a half the United States has been in the throes of a nation-wide struggle over the new Hawley-Smoot tariff, the effect of which is to raise duties against all other countries to a height never before attained.

In Great Britain, Lord Beaverbrook, supported by his fellow publisher, Lord Rothermere, is engaged in a great campaign of publicity with the object of swinging the British people into support of a new fiscal system, based on the idea of free trade within the Empire, or as near an approach to it as possible, coupled with tariffs against all foreign countries. Ex-Premier Baldwin still maintains his stand in favor of what are termed "safeguarding" of industry duties, coupled with a referendum on the question of placing a tax on food supplies in order that a preference may be given to the overseas Dominions.

In France, in Germany, in Italy, and in other European countries feelings akin to bitterness have developed against the United States because of the higher duties that country has levied against the world. All these nations, heavy debtors to the United States, feel outraged that the only means whereby they can pay their war debts to the U.S., namely, by exports to that country, is thus largely closed to them. Talk of reprisals is general, and in a number of instances higher tariffs have been imposed, particularly on products and manufactured goods in which the United States is a large exporter.

The Commonwealth of Australia, finding itself over-burdened with an extremely heavy national debt, and in need of larger revenues, has raised its tariff to new heights, and in regard to certain articles has entirely prohibited their importation.

In Canada, the recent Budget of Hon. C. A. Dunning, imposing counter-vailing duties on a specified list of articles against the United States, raising other duties as against that country, and increasing the scope of the preference accorded to Great Britain and other parts of the Empire, is now a daily household topic all over the Dominion, and the outstanding issue in the general election campaign now in progress.

Without presuming to offer any opinion on the relative merits of High Tariffs, Low Tariffs, or no Tariffs at all, because to do so would be to enter into the realm of partizan discussion, and such discussion is rigidly barred in this column, the question may well be asked: What is to be the outcome of this world tendency on the part of practically all nations to erect trade barriers one against the other, and each one against all others?

Certain facts must be recognized and admitted by all. It cannot be denied that Tariffs do engender hard feelings and suspicions between nations, and when such feelings develop, no matter what the cause, there is always great danger of the ensuing bitterness becoming gradually more intense, and the opposing peoples brought to a frame of mind where they are less ready to co-operate in other matters for the common good of all. In a word, international goodwill is placed in jeopardy, and a situation created where some little spark might easily start a mighty conflagration, another World War in fact.

But even should such a dire calamity not result, what is going to be the economic effect on the world, and on each separate nation, if one and all pursue the policy of erecting trade barriers each against the others? The logical end, of course, would be the complete cessation of all international trade. With each nation refusing to buy from other nations, or at least making it as difficult as possible to do so, it would inevitably follow that no nation could sell to any other nation, or to a very limited extent. This is a situation that must be faced, because it is looming up on the horizon in view of the economic and fiscal policies now under such wide discussion.

If nations decide not to buy largely, or at all from other nations, it follows, we repeat, that there will be no buying nations to which other nations can sell. Will this redound to the advantage of any nation? Take the United States as an example. If it refuses to buy from others, and those others in return refuse to buy from it, will the United States be better off? Can its own people consume the enormous output of its factories and fields? The answer, of course, is "No." Then the inevitable result is less production, which in turn means less employment, and decreased employment means decreased buying power, and that means a still further decrease in consumption, production, employment, buying power.

It means further that if other nations will not buy goods made in the United States, the manufacturers in that country will erect branch factories in foreign lands, and employ the people of those countries. Thus these foreign people will secure employment at the expense of the United States worker.

And if other countries follow the same policy and do likewise, how much better off will any one of them be than if they continued to raise those crops for which by nature they are best fitted to produce, or manufacture largely for world trade, and each distribute freely one to the other?

The need of the hour in all lands would appear to be sound thinking and sane consideration of basic economic principles, divorced from purely nationalistic desires and ambitions.

Keep Outdoors in Summer

Get the outdoor habit this summer. It improves both the health and the temper. Clothes can be mended on the porch, peas can be shelled and potatoes peeled out in the open air quite as efficiently as inside. You can even take your lunch tray outside with a few extra steps and eat de luxe in the great outdoors.

NO LONGER SUFFER WITH

Red Clover Seed Record

The production of red clover seed in Canada, in 1929, was the largest in the past quarter of a century. One of the most important legume crops, red clover for successful growing depends on hardy acclimatized seed. Special attention is being paid by the Seed Branch of the Dominion Department of Agriculture to the growing of registered red clover seed.

Not only has King George of England worn the same crown for 20 years, but it seems he hasn't had it reblocked or the band changed.

The word "budget" is an old English word meaning a leather wallet or purse.

Farm Loans Act

Six Canadian Provinces Have Taken Advantage Of the Act

Six of the provinces of Canada — Nova Scotia, New Brunswick, Quebec, Manitoba, Alberta and British Columbia—have taken advantage of the Farm Loan Act of Canada, securing long term mortgage credit. At the end of March loans to the amount of \$4,351,000 had been approved. Each borrower becomes a shareholder in company with the Canadian and Provincial Governments and receives his share of the profits. Loans are made on first mortgages on farm lands and farm buildings.

A REAL NERVE TONIC

Is a Bountiful Supply Of Rich Health-Giving Blood

Sufferers from nervous debility find themselves tired, low-spirited and unable to keep their minds on anything. They are totally unfit to perform their everyday duties.

Doctoring the nerves with sedatives is a terrible mistake. The only real nerve tonic is a good supply of rich, red blood. To secure this rich, red blood Dr. Williams' Pink Pills should be taken. Enriching and purifying the blood is their whole mission. Concerning them Mrs. Albert Bentley, Bancroft, Ont., writes: "Two years ago I was a complete wreck; in bed for seven months; extremely nervous had no color. Nothing I tried seemed to help me till I began Dr. Williams' Pink Pills. My condition at once improved and today I am well and able for anything without fatigue or trouble."

You can get these pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Saskatchewan Appointment

P. C. Ward Now Chief Clerk Of Natural Resources Department

Official announcement was made recently of the appointment of P. C. Ward, Regina, as chief clerk in the Provincial Department of Natural Resources. Mr. Ward is also a member of the public service commission, and in the absence of P. H. Shelton, is acting chairman of that body. Previous to the appointment of the commission, Mr. Ward was civil service commissioner for a number of years.

Use Miller's Worm Powders and the battle against worms is won. These powders correct the morbid conditions of the stomach which nourish worms, and these destructive parasites cannot exist after they come in contact with the medicine. The worms are speedily evacuated with other refuse from the bowels. Soundness is imparted to the organs and the health of the child steadily improves.

Saskatchewan Pool Elevators

Handled 87 Per Cent. Of All Pool Grains Delivered In Province

During the present crop year Saskatchewan Pool Elevators Limited have handled 87.2 per cent. of all pool grain delivered in the province, according to an official report. This is the highest percentage that the organization has handled in any crop year to date.

The Terror Of Asthma comes like a thief in the night with its dreadful throttling, robbing its victim of breath. It seems beyond the power of human aid to relieve until one trial is made of that remarkable preparation, Dr. J. D. Kellogg's Asthma Remedy. Then relief comes with a rush. Life becomes worth living, and, if the remedy be used persistently, the disease is put permanently to rout. Take no substitute.

Canada Sound Financially

Canada was described as the most sanely optimistic country he had ever been in by Sir William Letts, British automobile executive in an interview given at Toronto. He had visited the United States and the countries of Europe and had found Canada in what he believed to be healthier financial condition than any of the others.

Relieve Insect Bites!

Minard's neutralizes the poison of mosquito and black fly bites. A dependable antiseptic.

MINARD'S
"KING OF PAIN"
LINIMENT

Her Two Children Had Summer Complaint

Mrs. J. J. MacDonald, Glace Bay, N.S., writes:—"I am the mother of six children, and would not be without a bottle of Dr. Fowler's Extract of Wild Strawberry in the house. My two youngest were very sick with summer complaint, and there was nothing I tried could equal that remedy, and I had tried most everything, but they could get no relief. 'Dr. Fowler's' made a change in both of them in less than two hours."

On the market for the past 85 years; put up only by The T. Milburn Co., Ltd., Toronto, Ont.

Recipes For This Week

(By Betty Barclay)

SUMMER SALAD COMBINATIONS

Here are a couple of simple recipes for summer salads, that should come in handy at this time. Liberal servings of such salads will enable you to eat less of the heavy foods, and thus put yourself in better position to stand the heat of summer.

Cherry Delight: Arrange three or four large orange sections around edge of a lettuce cup made by cutting a small head of lettuce in two and scooping center from one half. Fill centre of cup with stoned cherries. Serve with mayonnaise or boiled dressing.

Orange and Strawberry: For each serving use one slice pineapple, quartered; and three or four orange slices, halved. Garnish with four large, ripe, unhulled strawberries. Top with a marshmallow half.

A DELICACY WITH FRESH BERRIES

1 package vanilla junket.
1 pint milk.
Strawberries.
Powdered sugar.

Make junket according to directions on package. When ready to serve, dust berries with powdered sugar and fill up the glasses.

Fruits like oranges, pineapple and strawberries should not be put into the milk when making junket, as the fruit causes it to whey. Crushed and sweetened, these fruits make tasty toppings.

Blackberries or raspberries may be put into the desert, also canned or preserved berries, peaches or other fruits.

Minard's Liniment gives quick relief.

Rivals Boy's Pocket

Handbags carried by women are beginning to rival the small boy's pocket for variety of contents. One bag examined recently contained a handkerchief, bundle of letters, diary, mirror, comb, purse, note-case, stocking-mending outfit, cigarette case, lighter, powder-case, lipstick, keys, patterns of cloth and a shoe-lace.

Ceremonies Were Simple

Memorable Fete In Iceland Opened By King Christian

Christian, King of Iceland, on June 26, opened the 1930 session of the Icelandic Parliament, halting at the very spot where one thousand years ago this oldest parliament in the world first was convened.

King Christian stood upon a huge rock in the middle of the plain of Thingvall, where Grim Goat-beard, the law-giver, in ancient days, recited from memory the entire code of Icelandic law.

The ceremonies were simple as of old, so simple as to obtain an almost religious aspect.

The broad plain, bounded on the south by a great lake, on the north by rugged snow-capped mountains, on the east and west by two great fissures of volcanic formation cut before the dawn of history, was dotted with many thousands of people who had come from far corners of the earth.

Newest Novelty In Paris

Tea Tables Are Now Covered With Map-Cloths

The French need no longer be identified as a race which doesn't know its geography. The newest novelties are map-cloths to cover the tea table. On them are maps, embroidered in colors. You can sip tea over Ireland and the Isle of Man, or over the old Barbary States, with all the rivers and mountains named. These novel tea-cloths are in parchment shade which makes them look like leaves out of a real atlas.

Keep your stock free from blemish with Douglas' Egyptian Liniment. Removes inflammation, quickly relieves bruises, sprains, strains, swellings, contraction of cords, stiffness of joints, and sore muscles.

"I have nothing but praise for the sermon," said the Scotchman. And he proved it.

For Blisters and Bolls—Minard's Liniment.

Mexico's metal production is increasing.

Cut Down Food Wastage

---by covering all perishable goods with Para-Sani Heavy Waxed Paper. Para-Sani moisture-proof texture will keep them fresh until you are ready to use them.

You'll find the Para-Sani sanitary knife-edged carton handy. Or use "Centre Pull" Packs in sheet form for less exacting uses. At grocers, druggists, stationers.

EDOUARD J. ROULEAU,
Editor and Publisher

It's extraordinary! We have noticed
that the posters announcing Mr. E. J.
Garland's meeting dates, were printed
in Calgary. What's wrong with the
printers in the Bow River riding?

REAL STATESMANSHIP

(Vancouver Sun)

To those Vancouver people who lis-
tened to the voices of Mackenzie King
in Brantford and R. B. Bennett in Vic-
toria, as they came over the air the
other night, there can be no doubt as
to which leader possesses the real
statesmanship.

Mr. Bennett's oratory was profuse
and magnificent. Mackenzie King's
words laid down a policy of progress
that means prosperity for the Cana-
dian nation.

There was little that was new in

the substance of the Prime Minister's
address. There were no secrets re-
vealed, no political surprises let out
of the bag.

The basis of Mackenzie King's policy
is the budget. His trade principles
have been developing over a period
of years. Canada knows exactly where
she is going with Mackenzie King.

Canada knows that only one thing
would happen should by some mir-
acle R. B. Bennett be elevated to po-
wer. And that is that her trade would
most surely dwindle and diminish.

Bennett would "blast" his way to
trade. No one can blast his way to
trade. No one can do business at the
point of a gun. There is no such thing
as profitable trade with an enemy.
The methods of unfriendly compul-
sion by which Bennett would seek to
secure business for Canada would cut
Canada's foreign business in half.

The friendly, co-operative methods
by which Mackenzie King will seek
trade for Canada, can double Cana-
da's foreign trade in five years.

The lifeblood of any exporting
country is foreign trade. Foreign trade
and the methods of securing foreign
trade are the real issues of this elec-
tion. Everything else is subsidiary.

Mr. Bennett offers vague promises
of foreign trade based on a principle
of ill-will, compulsion and a cancella-
tion of trade treaties.

Premier King offers a continuation
and extension of a trade policy that
has already brought millions of dol-
lars into the country.

It is political oratory against states-
manship. After last night Canada
should not find it difficult to choose
which she wants.

OUR COAL PROBLEM

Every day in a variety of publica-
tions, we are reminded that if Canada
is to develop into a well-rounded na-
tion with prosperous and well-to-do
citizens, she must not only look to
her wheat crop with its strange vicis-

situdes, but also to every other indus-
try which is capable of being organiz-
ed and made a profitable venture. This
is sound advice. Man cannot live by
bread alone, nor can a nation progress
if she depends upon only one source
of wealth.

It is time that this lesson was
brought home to our people, as far as
the coal situation, particularly in Wes-
tern Canada, is concerned. Here we
have an almost inexhaustible asset
which is being left unaided, unsupport-
ed and uncared for. Do our readers
realize that in the Province of Alberta
there is 85 per cent of Canada's coal
supply, and that this represents al-
most 20 per cent of the world's supply?

The Geological Department of the
University of Alberta has estimated
that in Alberta there are deposits
totalling 27 billion tons. Do our read-
ers further realize, that as one writer
puts it: "The capital employed in clai-
ming is greater than in any other
branch of mining, and that it repre-
sents roughly 147 million dollars as
against only 50 million for gold, silver
and copper combined. It has more em-
ployees than all other branches of
metallic mining together. It pays in
salaries and wages within one million
dollars of the total paid by all other
branches of mining, while its net in-
come from the sale of its products,
\$60,840,000 is equalled by only one
branch of metallic mining, this being
melting and refining which has a net
income of \$61,000,000."

The coal question is of the utmost
importance both to those who have
made such large investments and also
to the nation at large. The producers
have many difficulties to face in mar-
keting their commodity in the matter
of American coal, steam heating
plants now being established in var-

ious towns and natural gas used in
some of the provinces. They have
sought relief by way of reduction of
freight rates which have been grant-
ed. This, however, is but a temporary
measure and we believe that it is
only fair that steps should be taken,
after investigation, to make this reduc-
tion permanent and of a wide nature.
We further believe that some measure
of a protective duty should be given
so that the competition of American
coal may be lessened. Canada has a
wonderful heritage in these coal de-
posits and every means should be ta-
ken to see that they are developed
and fostered. The interest at stake is
now too great to allow it to become
endangered by lack of care. We are
firmly of the opinion that both the
Provincial and Federal governments
would do well to throw their mantle
of protection around this industry and
it is obviously the duty of every Can-
adian consumer to make the Cana-
dian mined production first choice.
Real patriotism carries with it a prac-
tical responsibility as well as fervor
of sentiment.—Western Home Monthly
Magazine.

"THE GATE CRASHER AT CARBON THEATRE THIS WEEK

The best comedy romance in recent
months, "The Gate Crasher," featur-
ing Glenn Tryon and Patsy Ruth Mil-
ler, will be shown at the Carbon The-
atre on Friday and Saturday of this
week.

It is everything that entertainment
should be. It has a delightfully re-
freshing romantic theme, embellished
with the usual Tryon superquota of
laughs.

The story is a rapid fire staccato

of laughs, put over almost with the
speed of a riveting machine. It con-
cerns an amateur small town detec-
tive who falls in love with an actress,
follows her to New York and sets to
work to solve the robbery of her je-
welry. The story rushes through its
hilarious situation in the theatre, in
a spectacular night club and in the
star's apartment.

Glenn Tryon is better than ever in
putting over his irresistible brand of
humor. Patsy Ruth Miller adds to
both the beauty and hilarity of the
photoplay, while T. Roy Barnes is a
great comedy foil for Tryon.

Beth Harol is good as the maid,
Jack Foley, a screen writer of note,
concocted the story.

The NEW Firestone BALLOON for Speed with Safety

Most Miles
Per Dollar

Firestone Tire and Rubber Company of Canada, Limited
Hamilton - Ontario

FIRESTONE now announces
another new tire—again built
in advance of today's car re-
quirements. This new Firestone
Heavy Duty Gum-Dipped
Balloon surpasses in strength,
in toughness, in traction and
in wear-resistance, any tire
that even Firestone ever built
before.

This new tire provides a wide
margin of safety at any speed
on any road. It has a deeper
tread, extra sidewall thickness
and scientific construction of
alternating plies of live
cushion gum and Gum-Dipped
cords. Two extra plies of
Gum-Dipped cords just be-
neath the tread absorb road
shocks—Firestone engineer-
ing and design give you a
wide margin of safety for fast
driving.

At every Firestone Dealer's,
you can recognize the new
Heavy Duty Balloons by their
magnificent construction and
by the gold stripe that stands
out against the ebony black
sidewalls. See your nearest
Firestone Dealer to day.

WORLD HAPPENINGS BRIEFLY TOLD

Three hundred and fifty Canadian pilgrims headed by Cardinal Rouleau of Quebec, were received in audience recently by Pope Pius.

A permit to develop an area of 5,120 acres of bituminous sands in Alberta has been granted to Walter P. Hinton, Toronto, according to the current issues of the Canada Gazette.

The recently signed parcel post agreement between Cuba and Canada is expected to be a precursor to a complete commercial treaty between the two nations.

The French military tribunal has been dissolved and the possession of buildings, including the military prison, handed over to the German authorities.

J. G. A. Creighton, C.M.G., K.C., law clerk of the Senate, dropped dead in the Rideau Club, Ottawa. He was 80. He had occupied his post 48 years, and had also been parliamentary counsel of the Senate since 1909.

On June 27, the King and Queen of Iceland and Denmark, assisted by the Icelandic cabinet, received Canadians and Americans of Icelandic descent, at the foot of the famous Rock of Laws, in Thingvallir Plain.

Two hundred members of the Sons of Freedom, Doukhobor sect, passed peacefully through Nelson, on their way from Porto Rico, B.C., their home for the past year, to join the main Doukhobor settlement at Brilliant.

Announcement has been made that the Canadian Holstein Friesian Association will this year pay out \$15,000 in prize money to breeder-exhibitors of Holstein cattle in addition to the amounts paid out by fair boards throughout the Dominion.

The third No. 4 Canadian General Hospital Scholarship of \$250 in the faculty of medicine at the University of Toronto, has been awarded to D. W. Johnston, Regina, Sask. It is a war memorial scholarship given by the Alumni Federation of the University.

Bred In Western Canada

A great majority of the people have the mistaken idea that the wild duck supply comes from remote northern fastnesses. Most of the ducks ordinarily hunted for game, except the black duck and perhaps the green-winged teal, to a certain extent, are western in their breeding range. The canvas-backs, red-heads, mallards and scaups, which are shot in Ontario and Quebec in the open season, are bred in Western Canada.

In Hollywood

"Do you see that gentleman? He's the nicest man I was ever married to"—Lustige Saches, Leipzig.

W. N. U. 1845

Beauty and Usefulness

No Reason Why Everyday Things Should Not Be Attractive

The consumer has cause to rejoice over the reunion of beauty with usefulness. Where else if not in the home should such a movement exert its most beneficial influence? There is no reason why beauty, like charity, should not begin at home; why the lamp in the boudoir, the gas range in the kitchen, the ash tray in the library, the automobile in the garage should not be designed and colored by the best artists industry can afford to employ.

This flight into the realm of art which modern business has taken is more than a profitable sales appeal. It is a cultural force that, if not dissipated in a straining toward extremes, may eventually help to raise the level of popular taste.

Canadian Bond Sales

Amount Being Invested In Bonds Speaks Well For Prosperity Of Dominion

The first five months of the present calendar year saw Canadian bond sales total \$292,677,277, as compared with \$228,765,612 for the similar period of 1929, and \$210,285,660 for that of 1928. Two thirds of the whole, or \$214,899,277, were purchased in Canada, while the remainder, amounting to \$77,778,999 were bought in the United States.

Winnipeg Newspaper Union

(By Annabelle Worthington.)

The feminine influence is apparent in a printed crepe silk with flared cap sleeves and bow neckline.

It is the smart moulded silhouette with belted natural waistline. The back is slim and straight.

Circular flared front of skirt provides interesting fullness.

Style No. 3473 comes in sizes 16, 18 years, 36, 38, 40 and 42 inches bust.

It's an excellent model for the attractive summer cottons, as printed dimity, pique prints, embroidered batiste and printed voile.

Flat silk crepe in skylark blue, dusty-pink shantung, coral-red linen and candy striped silk shirting are attractive selections.

Pattern price 25 cents. Be sure to fill in size of pattern. Address Pattern Department.

Using Small Seadrome

San Francisco Air Ferry Has Float Anchored At End Of Dock

A seadrome, built on the principles of proposed mid-sea landing places for aeroplanes, has been put in service by a San Francisco bay air ferry service. It is 100 feet wide, and declared to be the smallest floating island landing place in the country.

Shaped like an inverted saucer, the landing contrivance has a smooth rounded top and beneath its hull is a system of air tanks which may be regulated to control the depth and angle at which the device floats. The artificial island idea is carried out with sand on the inclines to prevent the amphibians from skidding. The sand is cemented into paint. The float is anchored at the end of a dock where more than 85 landings a day are made, with a similar number of take-offs.

Build Annex To Elevator

Big Grain Storage Elevator At Fort William To Be Enlarged

Erection of a grain storage annex of 1,600,000 bushels capacity to the Fort William terminal elevator of N. M. Paterson and Company, is announced by Norman M. Paterson, president, at a cost of approximately \$250,000. Construction will start immediately by the Fegles Construction Company, of Minneapolis and Fort William. It will be completed and ready for storage by about October 1. Engineers of the Fegles Company will prepare for construction to begin within a fortnight.

To Prove His Belief

A Polar expedition may be launched by Dr. Knud Rasmussen, noted Arctic explorer, to demonstrate his belief that the Eskimos are related to the neolithic men who inhabited the caves of what is now France and other parts of Europe.

SUNDAY SCHOOL LESSON

JULY 13

JACOB, A SELFISH MAN TRANSFORMED

Golden Text: "For what shall a man be profited, if he shall gain the whole world, and forfeit his life? or what shall a man give in exchange for his life?"—Matthew 16:26.

Lesson: Genesis 25:19-34; chapters 27-33; 46:28 to 47:12.

Devotional Reading: Psalm 19:7-14.

Explanations and Comments

Jacob Treats His Brother Meekly, 25:29-34.—One day Jacob prepared pottage, a dish made of lentils or small beans, and Esau, his brother, coming in faint from the field, begged for it. "Therefore was his name called Edom," "Edom" means "Red"; Esau had red hair and red complexion, and it was red pottage for which he sold his birthright; all of these things combined to give him the name of Edom, and his descendants were called the Edomites.

"Sell me thy birthright," Jacob demanded, taking a mean advantage of Esau's exhaustion and hunger. By the birthright he meant the rights and privileges of the first born, which later, at least, included a double portion of the father's property and succession to the leadership of the family, priestly rites, and in the family of Abraham heirship to the covenant privileges. Mean as Jacob's proposal was, it shows that he appreciated the value of the birthright, as Esau, who cared only for the gratification of the present moment, could not.

"Behold, I am about to die," Esau exclaimed—he was "tired to death," as we so often say with as little truth—"and what profit shall the birthright do to me?" Jacob knew that when Esau's hunger was appeased Esau would repent his bargain and break it as readily as he had made it, so he asked Esau to swear solemnly to abide by it, which Esau did. It was a sharp bargain that Jacob drove, how sharp Esau did not realize, for he was not noble enough to appreciate the birthright's value. He had his bread and pottage and went his way; so he despised his birthright. His birthright was nothing that he could see or eat or drink, and therefore he could not appreciate it.

Regina's Population Increases

Population Is Now Estimated To Be Nearly 67,000

Population of greater Regina is now 66,996 according to figures released by the Regina Board of Trade. The figures represent the population of the city on June 1, it was said.

This figure shows a growth of 4,515 over the previous unofficial figure of 62,481 compiled by Henderson's directories and the Regina Board of Trade, reported for June 1, 1929.

The front pew in the church may lack the required degree of upholstery, but at least there's no wind-chield to take a header through unexpectedly.

PILES

PAIN STOPS LIKE A FLASH!

"Piles for months. Nothing helped. Then 'Booth's Salve' ended itching, pain in 3 minutes. Piles gone gone." B. O. Arley. Instant relief. Piles vanish. Avoids knife. All druggists.

High In Mental Ability

George Bernard Shaw Brainiest Man In England According To Vote Taken

George Bernard Shaw, according to readers of The Spectator, the well-known London weekly review, possesses the best brains in the country. The Spectator is a journal circulating among the more thoughtful class of people whose opinions in regard to mental ability are worth considering.

The result of the recent vote is interesting in many ways. Here are the leading men in their "order of merit": Bernard Shaw, 214; Sir Oliver Lodge, 183; Lord Birkenhead, 162; Winston Churchill, 95; Dean Inge, 91; H. G. Wells, 86; Lord Melchett, 62; Lloyd George, 50; Phillip Snowden, 48; Sir John Simon, 45.

The present prime minister does not receive a vote and Mr. Baldwin gets but 13. The Archbishop of Canterbury, Dr. Lang, finds no place but the Archbishop of York (Dr. Temple), with 32 votes follows closely upon the heels of Lord Reading, who obtained 35. Sir James Barrie is "placed" by 15 voters and follows G. K. Chesterton's 17.

Good Roads Program

Extensive Mileage In the National Parks Being Built This Year

Good roads are being extended to every part of Canada. In the rural districts of every province there is a network of paved or surfaced roads, which not only are of benefit to the motorists, but to the farmers. In the National Parks of Canada, the great playgrounds of the country, maintained by the Canadian Government, there is an extensive mileage of improved roads. The road building programme in these parks this year is a substantial one and the provincial governments are constructing sections to connect the roads in the parks with the principal provincial highways.

Good Even If Old

Students of Ottawa University have been served plum jam which had been buried in the scholastic grounds for twenty-seven years, and they liked it. Forty quarts of the preserves were found buried several feet in the earth by excoavators, working on the location of the old kitchen destroyed by fire in 1903.

CHAPTER XIX.—Continued

Charman nodded, took the scrap of paper and stubby pencil he was holding, and wrote it down.

"I never was much good at remembering addresses," declared the doctor. "Here it is, Annie. Run in quickly, or you'll take cold."

The small girl who had followed him from the house, grasped the paper in her cold hands, and, with a shy smile for Charman, scurried away like a half-frightened animal.

"They must be very poor," said Charman as the doctor took his place beside her. "What does that woman want with Jimmy's address?"

She was thinking: Could it be possible that Jim was still collecting interest, at this distance? The thought hurt incredibly. For the sake of auld lang syne and her peace of mind, she wanted to think better of him than that. But how could she if . . .

She turned to look at the old doctor. He seemed to have read her thoughts as he responded: "There is a verse in the Bible, Charman, that says: 'When thou doest alms, let not thy left hand know what thy right hand doeth.' That describes as well as anything could, I think, Jim Bennett's character. Seeing him going about the country on the bank's business 'the best man for the job' they've ever had, according to George K., one wouldn't suspect that he was wearing the mantle of the Good Samaritan, now would they?"

"I—I don't seem to understand."

The doctor smiled at her bewilderment.

"Why should you? If I didn't follow pretty closely on Jim's heels, I wouldn't understand, myself. Like as not he'd pound the life out of me for telling; but that doesn't scare me—with the boy three thousand miles away! You see, my dear, Jim's father left considerable property. Jim came into his share at twenty-one, and he earns a good salary at the bank. He's well fixed—for Wickfield. No tie save his mother, and she's provided for."

The old man paused, while Charman urged impatiently: "Go on, please, Doctor. You're wandering all 'round Robin Hood's barn." You say that Jim is a good Samaritan; but if collecting interest from windows and orphans—

"Tut! tut!" broke in the doctor quickly. "You go too fast. I think you'll admit that there's a difference in collecting interest from the poor, my child, and paying that interest for them—lending a hand—helping a

lame dog over a stile, you know—loaning one's own money with no interest. That's what our Jim's been doing for five years whenever he came across a case deserving help. That woman wanted his address so she could send a Christmas card."

"Oh, no!" cried Charman.

This was, the doctor understood, not a protest at the Christmas card, but at her own blindness. She had to set her firm white teeth into her lip in order to keep it steady. "I must have hurt him horribly," she confessed after a tense moment. "I was a fool! I didn't see. I asked if he felt like—like Shylock!"

There came a silence; then the doctor said: "Yes—that would have hurt."

"He should have told me," cried Charman, grasping at this straw, in self-defense.

"How could he—being Jim? You had misjudged him," responded the old man with rugged honesty.

"I shall never, never forgive myself!" she declared passionately.

The doctor smiled.

"Perhaps not; but Jim will forgive you, child, if I know him as I think I do. There! Charman, don't be too much disturbed. Just drop the lad a line and say you understand."

"But will he understand?" asked the girl, raising unhappy eyes to her old friend. "I should think he'd despise me."

"Not Jim!" answered the doctor. "Come, child, cheer up. We're almost home, and I don't want Grandma to think that I've been scolding you."

Charman managed a misty smile as she replied: "I deserve worse than a scolding. I—I ought to be—lynched!" And they both laughed as they drew up before the window where Grandma was waiting.

"So you've had a ride?" she asked as the girl came in. "Were you warm enough? It's a terribly cold day. The doctor's run in three times from the office to look at the furnace. I wish I was young enough to marry that man, Charman, just to keep him in the family. Some one'll get him."

"Undoubtedly."

Charman smiled, but as she slipped off her coat and sought the register for warmth, her recent conversation on the subject of John Carter came back, and her color deepened.

"Yes, I was warm enough, Grandma, thanks to Doctor Howe's 'old faithful,' as Jim calls that ancient cape. We went to South Wickfield while he made a call."

"Who on?" asked Grandma with ready interest. "The real sick season's just beginning."

"The Smithsons. The mother has the grippe, but she's on the mend."

"Poor soul!" murmured Grandma compassionately. "She must have a real hard time making both ends meet. You ought to carry her something good to eat, child, while she's laid up. I don't suppose there's any one to do for her but Edward Howe, though she won't have to worry about her doctor's bill! Sometimes I've wondered how she's managed to keep a roof over her head, left as she was with all those children."

"I'll tell you how," said Charman, and proceeded to divulge Jim's secret. Her voice trembled as she finished, not wishing to spare herself. "And I asked him, Grandma, if he didn't feel like Shylock! I remembered he answered, 'Why on earth should I?'—and that made me mad. Oh, I do think I'm the stupidest girl in the whole world! It does seem, when I've known Jim Bennett all my life, as if I might have understood that he wouldn't be hard-hearted to—to a sick kitten!"

She had sunk down on a hassock at Grandma's feet, and the old lady reached out and stroked her hair.

"There, dearie, Jim isn't one to bear a grudge. You just write him a real nice letter and say you're sorry. And that reminds me of something else. Jim was here one day when you were out. He wanted I should make you understand something after he got away, and the only times I've thought of it were when you were at school, or evenings when the doctor was in and I couldn't speak. It was about his mother and that apron-string business that's always bothered you. He said he'd tried to explain to you, but somehow he couldn't get it out, so he came to me. I guess maybe it's easier to talk to old folks. You see, dearie. . . ."

The girl looked up, breathless, as Grandma, finishing Jim's story, said: "It taught me a lesson; but if I forget myself, Charman, and ask any promises of you when my time comes, it'll be because I don't know what

I'm doing, and you mustn't feel called upon to keep 'em. James Bennett never meant for Jim to be a slave to his mother the way he has been. I told him so, and I think it made the boy feel happier. Anyhow, he said I did him a sight o' good. I've an idea that Jimmy's a lot more sensitive than folks give him credit for being."

"I—I don't see why he finds it so difficult to talk to me," said Charman, a vague hurt tugging at her heart.

"I do," replied Grandma. "It's for two reasons. One's because he felt you didn't understand him; and the other's because he cares such a heap more for you, dearie, than you've ever cared for him. I declare, Charman, so long as you don't seem to want the boy yourself, I hope he'll meet some real nice girl out in California, and marry her. He'll look different to a girl who hasn't seen him in short pants' days, wading barefoot in Fuller's brook, and his toes tied up afterwards in rags because he's stepped on a broken bottle or something—more romantic maybe."

A reluctant laugh escaped the girl as she arose.

"Well, Grandma, I feel like a criminal; but I suppose we've got to eat. Thank goodness it's bean night and everything's ready. You and John will have to play double Canfield this evening instead of bridge. I've got to write to Jim, or I shan't be able to sleep a wink. I feel," she added, turning as she reached the door, "I feel just about one inch high!"

CHAPTER XX.

What ails our 'Blessed Damsel' these days?"

Grandma and the young doctor were eating their noon-day meal at the kitchen table. Christmas had come and gone, and Wickfield had settled down to the cold, hard, relentless winter months. For three weeks snow had fallen at frequent intervals, freezing almost as soon as it reached the ground, so that the roads and sidewalks were packed. Charman had expressed a wish that, despite the cold, they might stay that way till spring because the walk to school was so much easier on the hard snow than through the slush and mud that accompanied warmer days. She had refused the doctor's offer of a ride, and, feeling vaguely troubled, Grandma had watched her out of sight. Something was wrong.

John Carter's question, therefore, came as a relief, giving her an opportunity to speak her thoughts. Yet she smiled at his manner of putting it, though the young M.D. had addressed her granddaughter in a like manner many times since a day in August when he had driven into the yard to find her leaning from his own bedroom window, the sun making an aureole of her hair. He had stopped the car directly below her, and stared up in admiration as he said:

"You look like the blessed damsel."

Picture of Health Now

"In May and June I was badly rundown and had faint spells until it was a drag to do my work. In July and August I didn't seem to pick up so I decided to try Lydia E. Pinkham's Vegetable Compound because I saw it advertised. I took two bottles and now I am the picture of health. I feel fine, do all my work and milk two cows. If any woman writes, I will certainly answer her letter."—Mrs. George R. Gillespie, Punichy, Saskatchewan.

**Lydia E. Pinkham's
Vegetable Compound**

Lydia E. Pinkham Med. Co., Lynn, Mass. U. S. A.
and Ontario, Quebec, Canada

For Young and Old Alike

ENO is so mild it can safely be given to any child, yet it is quite as effective for grown-ups, eliminating from the systems of young and old alike the clogging waste and poisons which cause intestinal absorption . . . unsuspected constipation . . . Refuse substitutes.

**ENO'S
"FRUIT SALT"**

"Her eyes were deeper than the depth
Of waters stilled at even;
She had three lilies in her hand,
And the stars in her hair were seven."

"Did you do it purposely?"
Charman, still leaning on the window sill, glanced down at the golden lilies in her hand, and answered: "Not guilty. As you perceive, I have had a shampoo. I went into the garden to let the sun lend a hand at the drying, and picked these posies for your bedside table. This accounts for my invasion of your domain; but your imagination is vivid, Doctor John. Where, please, are the seven stars to adorn my hair?"
(To Be Continued.)

Minard's Liniment for all Strains.

Stands Every Test

No Food Has Been Found To Take
Place Of Milk

Milk is the food of all foods for mammals—of whom man is the chief. Further, it is the only food actually designed and evolved by nature to be food for them. It is, of course, merely lack of knowledge to regard milk as not a food because it flows as a liquid. In reality, it is solid in the breast and in the stomach; in nature it is only fluid for a second or two of convenient transit from one to the other.

Ordinarily we do not test our foods. Our diet is mixed, and we have a large factor of safety capital on which to draw during time of deficiency. There are four periods, however, during which food may really be tested; growth, athletic exercise, illness, and old age. And no other food can be suggested which remotely approaches milk when tested under these four conditions.

Metallized Paper

M. U. Schoop, of Zurich, Switzerland, has announced that he has developed paper money which will not burn, tear or wear out. His process is described as spraying paper pulp with a protective coating of tin, aluminum or copper. The metallized bank notes are hard-surfaced but are said to be pliable and easily handled.

Muscular Rheumatism Subdued.—When one is a sufferer from muscular rheumatism he cannot do better than to have the region rubbed with Dr. Thomas' Electric Oil. Let the rubbing be brisk and continue until ease is secured. There is more virtue in a bottle of it than can be fully estimated.

A Rare Occurrence

February, 1866, was the most remarkable month in the history of the world. There was no full moon! That same year, January and March had two full moons each. This never happened before—and will not happen again for 2,500,000 years.

The cheapness of Mother Graves' Worm Exterminator puts it within reach of all, and it can be got at any druggist's.

A clock in an observatory at Sydney, Australia, is operated by sunlight.

One Paris hotel will run an airplane taxi service for its guests.

Minard's Liniment checks Colds at once.

Little Helps For This Week

"As the body without the spirit is dead, so faith without works is dead also."—James ii. 26.

'Tis not the wide phylactery,
Nor stubborn fast, nor stated prayers,
That make us saints; we judge the tree
By what it bears.

And when a man can live apart
From works, on theologic trust,
I know the blood about his heart
Is dry as dust.

—Alice Cary.

The effective life and the receptive life are one. No sweep of the arm that does some work for God but harvests also some more of the truth of God, and sweeps it into the treasury of life.—Phillip Brooks.

Persian Balm—alluring, provocative and charming. Fragrant and refreshing as a cool breeze in summer. Delightful to use. Creates complexions of surpassing loveliness. Makes the skin velvety soft in texture. Soothes and dispels all irritations caused by weather conditions. Softens and whitens the hands. Persian Balm is a peerless toilet requisite for women who care for charm and distinction. Use it for hands and face.

Pure affection is a sentiment free from any taint of any kind, and is as rare as pure charity.

The first Chinese who studied medicine abroad received his medical degree in Edinburgh in 1854.

TAKE NO CHANCES WITH BABY!

Cook Her Food in the
"Health Ware"

Doctors recommend Enameled Ware for cooking baby's food. It is so simple to clean . . . so easy to keep sanitary and free from germs. It cannot stain. There is no metal surface exposed to the food. Nothing to absorb moisture, flavors nor odors.

Make sure you get McClary Enameled Ware . . . the Modern "Health Ware". Watch for the familiar McClary label.

All tenders to be sent to

T. CARDWELL, Secretary,
Granger, Alta.

FARM WOMEN'S WEEK, JULY 14-17

During the hot weather, in the month of July, many farm women, especially the mothers of small children, feel the need of a change and a rest before commencing the extra work which harvesting and threshing always bring. At this time of the year the lawn and gardens at the Schools of Agriculture are usually at their best. The accommodation and comforts provided by the dormitories offer an ideal spot for such a holiday and rest. With this in view the Department has decided to hold a Farm Women's Week at the two schools where there is dormitory accommodation, namely, Olds and Vermilion.

July 14th to 17th have been selected for the course at Olds.

The object of these courses is to supply a real holiday and a rest, give the visitors an opportunity to enjoy the lawns and gardens, and to obtain information of special interest to the farm women. The programmes now being arranged include lectures and demonstrations in such subjects as clothing, cooking, home nursing, gardening etc. These lectures will very largely take the form of informal talks and every delegate is asked to come prepared to discuss her problems with the staff and instructors.

The staffs of both schools are willing and anxious to do all in their power to make the course as pleasant and as profitable as possible. Kindly bear in mind that all entertainment will be very informal.

The Department is anxious that those who come to these courses be women who do not have an opportunity to attend conventions or who are not able to get away from home for little holidays and breaks in the regular routine of their lives. In short, the women who most need the rest and holiday.

There is no fee for instruction or entertainment. Board and room are at the rate of \$1.50 per day. Travelling expenses to be provided by individual or the organization.

It is understood that some women will have to bring their babies or small children, and provision is being made for them. It is hoped that it will not be necessary to bring any children over five. Children will be cared for during lecture periods. No charge will be made for children under five. Five to ten years, board and room will be 75c per day; ten and over, the full price of \$1.50 per day.

This is a new venture for the Department and one which we feel will be of real value to farm women. We, therefore, hope you will give us your most hearty co-operation in making our first courses an outstanding success.

"TAKE HOME A BRICK"

cess. It is hoped that these will grow and develop from year to year and become an established part of the yearly activities of the schools.

The program will consist of reception speeches, visits to various parts of the school grounds, lectures and demonstrations in sewing, cooking, Horticulture, Bee Keeping, Poultry, etc. For evening entertainment, there will be moving picture, community singing, a whist drive and a banquet.

Inquiries and applications should be mailed to the School of Agriculture, Olds.

WILD ROSE IS NOW ALBERTA'S FLORAL EMBLEM

From Dominion Day of this year the wild rose will be the recognized official flower of the Province of Alberta. The act was passed at the last session of the legislature, and the date was then named.

Selection of the typical western blossom will meet with general approval throughout the Province. There is not a portion of Alberta where the wild rose is not found and there is a rugged hardness to the bush and a sweetness to its bloom which makes its selection as the official flower most appropriate.
